

pearl

kathara grid body flow

problems

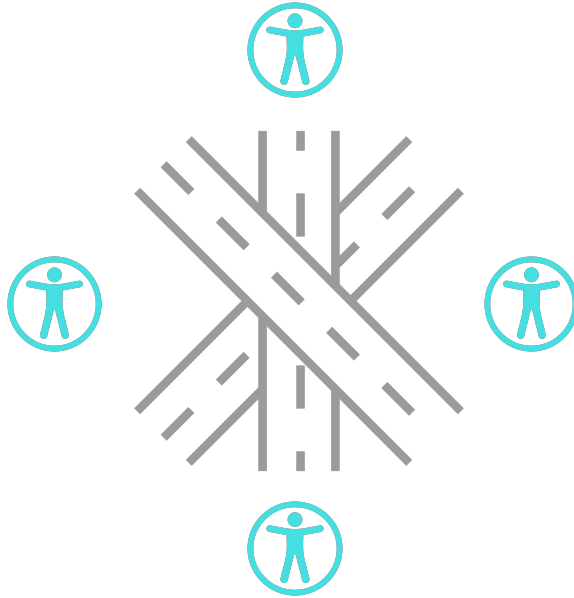

1. City congestion
2. Inflation
3. Talisman memory superstitions
4. Yield Sealed via Moderators & Delegates in permissible Web4

Problem :: City Congestion

The use of land is not widely distributed and architected, which creates an illiquid amount of desire to live in key serviceable urban areas

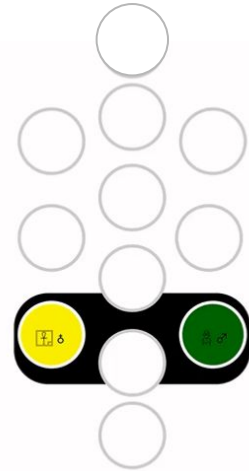

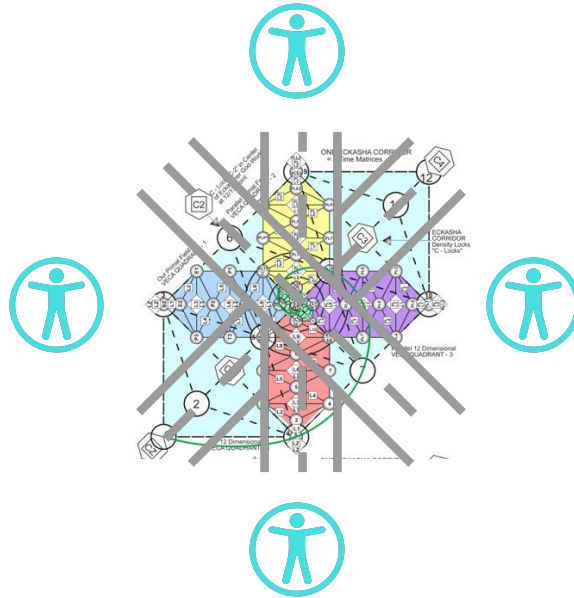

The liveability of culture of localized lifestyle does not cater well to spill over of moral aesthetics

How to guide or onboard more people to your in-lived or movement city?

Solution :: Pearl Guiding Coordination Squads

Interactions with
others out in ones daily
life can be tuned by
incentication of
hospitality discounts
modulated by the
kathara grid ladder

Earth ↔ Mars
Nephthys ↔ Horus
Coffee ↔ Meal

Problem :: Inflation :: Historic Examples

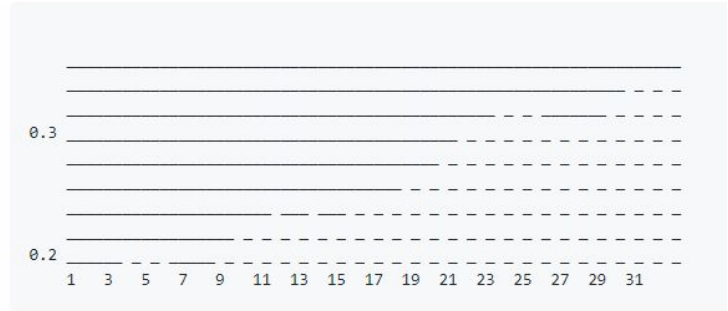

- Warning: Tarots are Static w.r.t. markets and misaligned with equality in power and responsibility
- Stable: Energetic forms of the body can be tested alchemically & via ecological mimesis
- Taking the assumption this culture is already played out to its fullest extent, is there a suitable kathara software application for more accurate denominations in community value

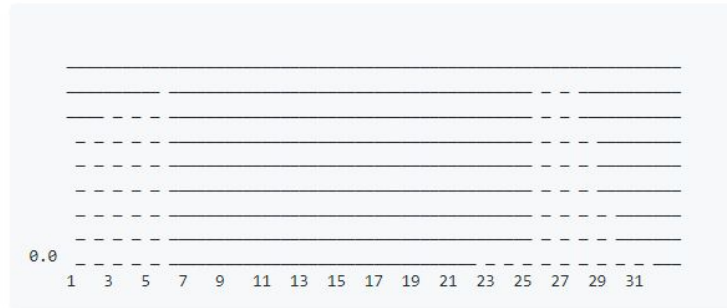

Solution :: Pearl Inflation Simulation

- Realizing a graphical pattern of something that is stable comes from the ability for this algorithm to discount those below the 50% benchmark, maintains the gini at 0.01
- While these results use the randomness coming from the `Math.random()`, this can be repeated from new networks like fluence the randomness of particle, while altering threshold #'s on peer connections

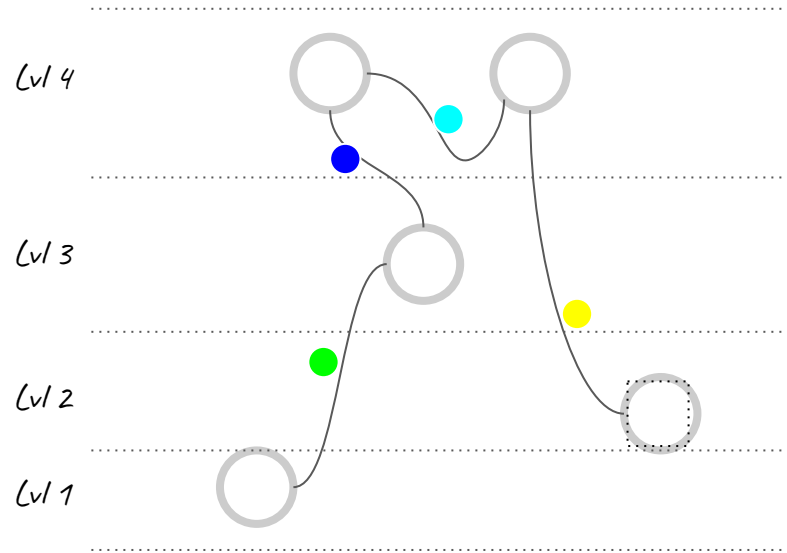

no discount, increases steadily

with discounts, does not break .01

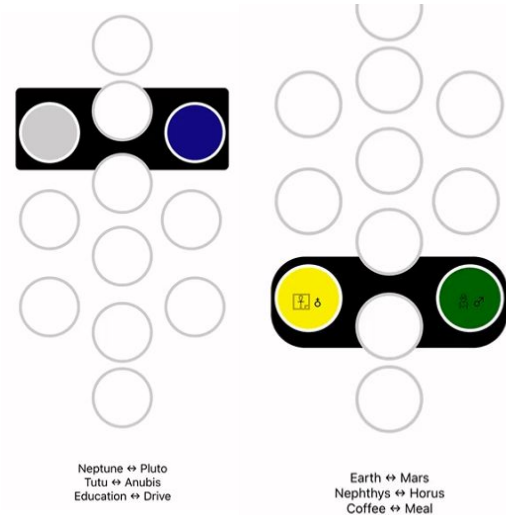

Solution :: Distributing Discounted Joy Experiences :: Smart City

Seeking the joy of adventure in your city, navigating the various dynamic aesthetic, led with your pair of glasses

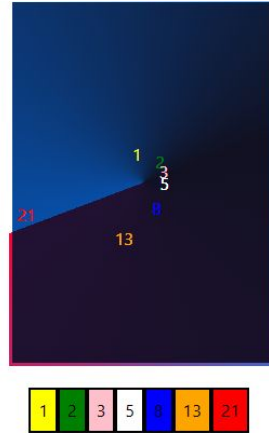

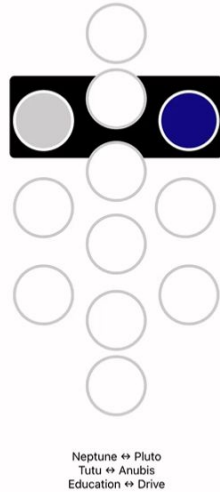

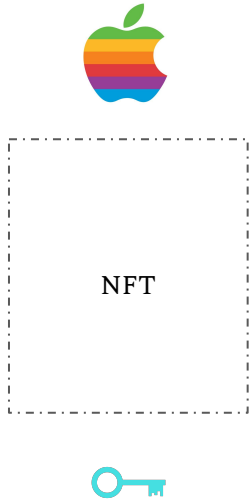

Navigable Prompts for use that are discarded and stored locally on a device from a pushed out federated account

- *Gini-coefficient is used to indicate the discount band on the span of the kathara grid*
- *Tuneable unicode prompts at the disposal of community oracles, self, or others versions too*

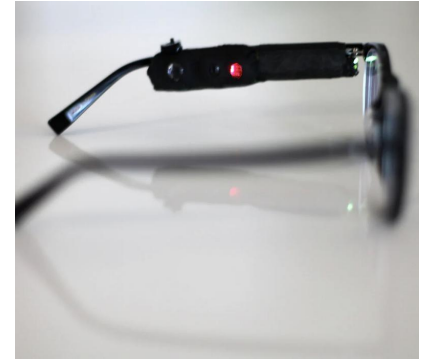

Solution :: Talisman Location Passes

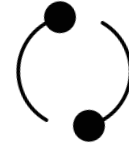

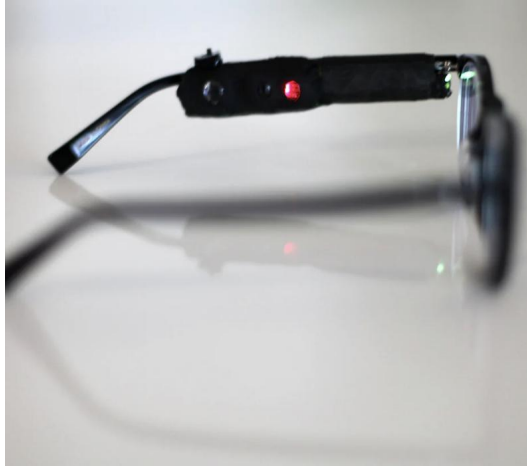

Integrations with Ethpass as modulated from delegates from svg to NFT upload

*Customer Service
Representative*

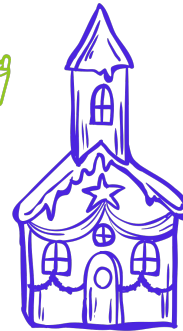

*Solution :: Delegates moderate yield redeemable flow & community with LED
federated write, local read*

Rental

Future ::>

- *Storage of pearl list on Urbit or ship as a personal computing software*
- *Possible off-chain oracle usage with link or fluence derived blockchain gateway for p2p networking, for writing led, actions performed on-chain therefore stripe API as an onboarding mechanism might be recommended for sequencer of gas payments if delegated*
